Dear Chairwoman Granger and Ranking Member DeLauro:

I am requesting funding for the Coshocton-Warsaw Waterline Extension Project in fiscal year 2024. The entity to receive funding for this project is the City of Coshocton, located at 760 Chestnut Street, Coshocton, OH 43812. The funding would extend approximately 44,00 feet of 12-inch water line to the Village of Warsaw. Water will also be extended to the Riverview school campus which is currently on its own water system. The project is an appropriate use of taxpayer funds because water rates will be affordable for this small Appalachian community, the population of which is 53.8% low to moderate income. This project exemplifies the collaboration of multiple political subdivisions working together to build a strong, resilient, sustainable infrastructure that is needed for community and economic development.

The project has a Federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Troy Balderson  
Member of Congress
